

THE AGELESS WISDOM TEACHING

TOTAL PROSPERITY & ABUNDANCE SEMINAR SERIES

Dear Friend:

Welcome to the *Total Prosperity and Abundance Seminar Series*; offered as a ten-lecture series, in two parts.

What prompted me to create these seminars? Let me share briefly with you a part of my journey.

In 2004, I took a long hard look at my life and the financial condition of TSG. I decided that if I was going to fulfill TSG's purpose and my promise, I had to do some serious work on having more abundance. I started reading and meditating and collecting information. I then started putting into practice what I was learning, and my personal and business life began to change. I found that abundance was not a simple act of affirmation or belief, nor an act of attracting more money to my life, but rather it took a complete change of attitude about every facet of life, from the inside out. I had to understand what abundance meant from the deeply esoteric angle and be able to articulate that in my life and for others in practical ways.

As I studied and practiced what I learned, I began to understand the meaning of the words of Christ: "I am come that they may have life and may have it more abundantly." (John 10:10) I wanted to understand the secret of this message, the real meaning of it and see how this played out in the physical, emotional, mental, and spiritual worlds — the totality of our life.

I noticed that many people in the spiritual community do not take steps to have more abundance. Although those who are studying the Teachings find themselves beyond the old-fashioned ideas of poverty and want, they still had these ideas instilled in them in some form. There is an underlying belief system that articulates that money, wealth, prosperity are not truly part of a disciple's life. I had to find and identify the opposite of that belief and try to find ways to transform my life and the lives of others.

So, I went to work. I re-read and studied deeply the book *The Spring of Prosperity* by Torkom Saraydarian. I started to study and apply my discoveries in every part of my life. I started seeing wonderful changes. Then, I organized a series of seminars on the topic of *Total Abundance and Prosperity*. I presented the seminars in Cave Creek Arizona, Los Angeles California, Lima Peru, and in London, UK. It was a wonderful experience, and I found my life and TSG starting to show new signs of healing, expansion, and abundance in the physical, emotional, mental, and spiritual realms.

I am now sharing my experiences with you. I know that you too can be on the way to total prosperity and abundance.

Enclosed in this bundle, you will find the workshop materials and the ten lecture recordings numbered consecutively in order of presentation. You will find question and answer sessions, group discussions, and visualization exercises within the recordings. In addition, you will receive *The Spring of Prosperity* book, *A Daily Discipline of Worship* booklet, and *Infinity Music* mp3 (or compact disc). These are our gifts to you!

We maintained the integrity of the live seminar by keeping the recordings consistent with the seminar as it was given so that you too can enjoy the same energy as the first participants in Cave Creek.

The seminars consist of two parts; each part is designed for a two-month immersion program. When you complete Part One, proceed to Part Two. Then, go back and start the work once again, identifying your plans and purpose in your life. Use the tools of abundance and expand them. You will see changes take place if you persevere. Abundance and prosperity flow according to the Laws of Nature. When a change takes place in one part of life, everything shifts. You will begin to see small results, at first. With years of work, your life will change to whatever it is that you want it to be, according to Divine Law.

Please stay in touch. Let us know how you are doing. We are very interested in hearing about your process and growth.

I wish for you a complete spiritual healing and Total Prosperity and Abundance.

With love and appreciation,

Gita Saraydarian

Update: Since I last wrote these words, I have seen enormous growth, prosperity, and abundance for me personally as well as for TSG Foundation. Our students and supporters have increased and become more focused. We have continuously worked to fulfill our stated purpose. We have completed and moved into our new *TSG Foundation Center for Spiritual Development*. Changes have taken place that were beyond my expectations. I have followed the lessons for prosperity faithfully throughout these years and will continue to do so. I never gave up, but persevered and focused. These lessons are for a lifetime of work. They change the old patterns of your life into a new, soul-based appreciation of your life and the opportunities given to you. I wish you abundance, prosperity, and continuous joy of discovery of your true worth. (Gita, August 2024).
