

Festival of Humanity 2026

by Gita Saraydarian

In May, people all over the world celebrate the Sun in Gemini by participating in The Festival of Christ, The Festival of Humanity, World Invocation Day, the triumph of the Sacred Life over the material life. It is a call to action for all of us to place the sacred above the material in our lives.

Christ and the Great Ones demonstrate that nothing can stop the resurrection of the human soul when we activate the Sacred Fire in us. We see the greatest example of the Sacred in the life of Christ.

He rose from dead matter.

He proved the continuity of life to his shocked disciples.

And ascended to a higher initiation.

He promised He will reappear.

He has stayed with humanity, guiding us and inspiring and protecting us. And, when the time is right and large numbers of humanity start to live by the Higher Wisdom Principles, He will reappear and walk among us.

Every year at Wesak, He meets with the Lord Buddha and once again blesses humanity.

Every year when the Sun is in Gemini, Christ and the Hierarchy release the wisdom to humanity to engage us in our continuous labor to bring light and love and Divine Will into everything that we are doing.

Why is this a significant period in the life of our planet?

It demonstrates that despite the human negligence, utmost humiliation and cruelty, murder and mayhem that still fill our daily lives, despite all of this, there is still

- Hope for a better tomorrow ingrained in our hearts and minds.
- The power of a Love that never fades from our hearts.
- The triumph of the Good, the Beautiful, and the True.

Even though today, in May 2026, we are experiencing wars in many, many parts of the world, useless, senseless wars, genocides that are going unnoticed, bombs exploding and killing entire families — all fueled by hatred and pseudo narrative, even with all of this, people are awakening.

How are we awakening? People all over the world are searching for meaning beyond their electronic noise and the noise of the ego. They are finding refuge in places of worship, in spiritual books and ceremonies that celebrate the renunciation of the mundane and the resurrection of their souls.

We are awakening to the Sacred Life.

People are finding in the Wisdom literature what the future of humanity truly is.

The Ageless Wisdom Teachings are anchored in the Teachings of Christ. The keynotes do not belong to any religion but are the property of all humanity. For example:

- Love one another as Christ and Great Ones love us.
- Forgive until you have dissolved the underlying animosity.
- Serve and care for those who cannot care for themselves.
- Feed the hungry; shelter those who have no home; clothe the naked.
- Do not kill; but lift up.
- Create a new world on new principles.
- Suffer, care, grieve, mourn with your brethren and you will also be supported when you suffer loss and grief.
- Nothing goes unnoticed by our Father in Heaven; you will be cared for.

This month especially, let us lift our hearts and minds to the possible. Let us add our voices to the healing of humanity, to the healing of our animal friends, to the healing of the vegetable kingdom, and the healing of the mineral kingdom.

We are responsible for the sanctity of life.

It is through human actions that Christ will actualize His Teaching.

Let us give Christ and the Great Ones our hearts and our labor.
