TSG Annual Conference and Celebration of Wesak 2027

The Seven Rays

The **TSG Annual Conference and Celebration of Wesak** will take place from April 17th to April 21st, 2027. A full conference schedule will be posted on the TSG website in January 2027.

April 17th: evening welcome and orientation.
April 18th, 19th, 20th: full-day events and full moon meditation.
21st: half-day, Going Forward.

Conference preparation begins November 1st.
Pre-registration required. This event will be open to those who have undergone a special preparation process for at least six months prior to the conference.
Participation will be available both in-person and virtually.

A Unique Opportunity

A unique opportunity opens to humanity: In 2027, we will experience two Taurus full moons, one in April and the second in May. Torkom Saraydarian writes the following:

"There are some years when we celebrate two full moons in the same sign. …We are told that a great magnetic field and a polarity are created between these two full moon periods. This magnetic field also builds within us a polarity between our personality and soul. The first full moon creates a *personality crisis.* The second full moon creates a *spiritual crisis* between these two fields — personality and soul, and between the personality of all nations and their Soul.

Thus, a great electromagnetic field is built which creates many kinds of results. One result is that this magnetic field attracts higher inspirations, impressions, visions, and revelations in the international, national, and individual domains during the two full moons of Taurus."

(*Wisdom of the Zodiac*, Chapter 31: Taurus-Crisis and Two Full Moons.)

We will observe the first full moon during the Annual Conference. The theme will be the purification and preparation of our **personality.** We will learn about the Seven Rays and how they relate to our daily lives, how developing certain virtues can help us build and nurture a well-rounded personality, and how we can prepare the personality for the soul to express itself as needed in any area of life.

On the second full moon, we will celebrate the **soul expression.**
